

Dear Campus Customers:

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, June 23, 2017 through Sunday, June 25, 2017.

We will be shutting down after 5:00p.m. on Friday, June 23, 2017. Normal service will be restored no later than Sunday, June 25, 2017 at 11:00p.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant. The systems that will be affected during the shutdown will include: building heat, industrial & domestic hot water, and steam generation for cage washers and autoclaves.

The chilled water supply for the buildings and process cooling will **not** be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings NOT affected by the Central Plant HTHW Shutdown:

AIRB

Beckman Laser

Berkeley Place / Law School

EH&S

Gavin Eye Institute

Gillespie

Gottschalk

Gross Hall

Hewitt (Heating will be affected by this shutdown)

Hitachi

Housing

Irvine Hall

Med. Ed / Berk Alumni

Med Surge I

Med Surge II

Mesa Arts, Commons

Multipurpose Academic & Admin. Bldg.

Multipurpose Science & Tech. Bldg.

North Campus

Rockwell Engineering

Sprague Hall (Heating will be affected by this shutdown)

Please call Tammy Kelleher at 824-8715, Tony Garrit at 824-5140 or Jerry Nearhoof at 824-2781 for questions regarding this regularly scheduled shutdown.

The Central Plant night supervisors, Ricky Farmer and Bijan Abdoli-Dormani, can be reached at 824-0317 from 7:00pm to 5:00am.

Thank you for your continued support and understanding,

Tammy Kelleher
