

Dear Campus Customers:

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, March 24, 2017 through Sunday, March 26, 2017.

We will be shutting down after 5:00p.m. on Friday, March 24, 2017. Normal service will be restored no later than Monday, March 27, 2017 at 5:00a.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant. The systems that will be affected during the shutdown will include: building heat, industrial & domestic hot water, and steam generation for cage washers and autoclaves.

The chilled water supply for the buildings and process cooling will not be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings NOT affected by the Central Plant HTHW Shutdown:

AIRB

Beckman Laser

Berkeley Place / Law School

EH&S

Gavin Eye Institute

Gillespie (Steam System Repairs, Heating will not be affected)

Gottschalk

Gross Hall

Hewitt

Hitachi

Housing

Irvine Hall

Med. Ed / Berk Alumni

Med Surge I

Med Surge II

Mesa Arts, Commons

Multipurpose Academic & Admin. Bldg.

Multipurpose Science & Tech. Bldg.

North Campus

Rockwell Engineering

Sprague Hall (Steam System Repairs, Heating will not be affected)

Please call Tammy Kelleher at 824-8715, Tony Garrit at 824-5140 or Jerry Nearhoof at 824-2781 for questions regarding this regularly scheduled shutdown.

The Central Plant night supervisors, Ricky Farmer and Bijan Abdoli-Dormani, can be reached at 824-0317 from 7:00pm to 5:00am.

Thank you for your continued support and understanding,
Tammy Kelleher
