

# Central Plant

## Long Term Shutdown Schedule

### 2017 - 2020

#### 2017

March	24, 25, & 26	(High Temp Hot Water Shutdown)
June	23, 24, & 25	(High Temp Hot Water Shutdown) (Date change 2016)
September	15, 16, & 17	(High Temp Hot Water Shutdown)
December	15, 16, & 17	(Chilled Water & High Temp Hot Water Shutdown)

#### 2018

March	23, 24, & 25	(High Temp Hot Water Shutdown)
June	22, 23, & 24	(High Temp Hot Water Shutdown) (Date change 2016)
September	21, 22, & 23	(High Temp Hot Water Shutdown)
December	14, 15, & 16	(Chilled Water & High Temp Hot Water Shutdown) (Date change 2016)

#### 2019

March	22, 23, & 24	(High Temp Hot Water Shutdown)
June	21, 22, & 23	(High Temp Hot Water Shutdown)
September	20, 21, & 22	(High Temp Hot Water Shutdown)
December	13, 14, & 15	(Chilled Water & High Temp Hot Water Shutdown)

#### 2020

March	20, 21, & 22	(High Temp Hot Water Shutdown)
June	12, 13, & 14	(High Temp Hot Water Shutdown)
September	18, 19, & 20	(High Temp Hot Water Shutdown)
December	18, 19, & 20	(Chilled Water & High Temp Hot Water Shutdown)

Central Plant will issue reminders to all departments on campus at least two weeks before the shutdown occurs. The notice will be sent on the Utility Outage list. The reminder will list all services affected. As in the past, every effort will be made to minimize the impact on building heating and cooling.

The High Temp Hot Water Shutdown will affect building heat, cage washers, and autoclaves that use high temp hot water from the Central Plant.

The Chilled Water Shutdown will affect building cooling and process cooling systems that use chilled water from the Central Plant.

I want to take this opportunity to thank everyone for their cooperation during the previous shutdowns. This time is highly valued by Facilities Management, and helps Central Plant grow to meet the expanding needs of the campus community.

Tammy Kelleher  
Sr. Superintendent, Plant Operations  
Facilities Management
