

Dear Campus Customers:

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, September 15, 2017. During this time, Facilities Management will also replace two of the Central Plant boilers. Due to the work necessary to install the new boilers, the regular scheduled shutdown will be extended through Tuesday, September 19, 2017.

We will be shutting down after 5:00p.m. on Friday, September 15, 2017, with normal service being restored no later than Tuesday, September 19, 2017 at 11:00p.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant, as well as installation of piping for new boilers. The systems that will be affected during the shutdown will include: building heat, industrial & domestic hot water, and steam generation for cage washers and autoclaves. The chilled water supply for the buildings and process cooling will **not** be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings NOT affected by the Central Plant HTHW Shutdown:

AIRB
Beckman Laser
Berkeley Place / Law School
EH&S
Gavin Eye Institute
Gillespie
Gottschalk
Gross Hall
Hewitt Hitachi
Housing
Irvine Hall
Med. Ed / Berk Alumni
Med Surge I
Med Surge II
Mesa Arts, Commons
Multipurpose Academic & Admin. Bldg.
Multipurpose Science & Tech. Bldg.
North Campus
Rockwell Engineering
Sprague Hall

Please call Tammy Kelleher at 824-8715, Tony Garrit at 824-5140 or Jerry Nearhoof at 824-2781 for questions regarding this regularly scheduled shutdown.

The Central Plant night supervisors, Ricky Farmer and Bijan Abdoli-Dormani, can be reached at 824-0317 from 7:00pm to 5:00am.

Thank you for your continued support and understanding,

Tammy Kelleher
