

Dear Campus Customers:

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, June 20, 2025, through Sunday, June 22, 2025.

We will be shutting down at 10:00p.m. on Friday, June 20, 2025. Normal service will be restored no later than Sunday, June 22, 2025, at 11:00p.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant. The systems that will be affected during the shutdown could include building heat, industrial & domestic hot water, and steam generation for cage washers and autoclaves.

The chilled water supply for the buildings and process cooling will **not** be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings Affected by the Central Plant HTHW Shutdown:

Biological Sciences III – No Steam
Engineering Gateway – No Steam
Engineering Tower – No Steam
Gillespie Research – No Steam
McGaugh Hall – No Steam

Medical Sciences Stack – No Steam
Qureshey Research Laboratory
Sprague Hall – No Steam
Steinhaus Hall – No Steam
Student Center

Please call Mike Bonomo at 824-8715 or Tony Garrit at 824-5140 for questions regarding this regularly scheduled shutdown. The Central Plant can be reached at 949-824-5520 for after-hours information.

Thank you for your continued support and understanding,

Mike Bonomo, PE
