

Dear Campus Customers,

Central Plant will be conducting a regularly scheduled high temperature hot water shutdown the weekend of Friday, March 19, 2021 through Sunday, March 21, 2021.

We will be shutting down after 5:00p.m. on March 19, 2021. Normal service will be restored no later than Sunday, March 21, 2021 at 11:00 p.m.

The purpose of this shutdown is to conduct regularly scheduled maintenance of equipment on the high temperature hot water system and the cogeneration plant. The systems that will be affected during the shutdown will include: building heat, industrial & domestic hot water, and steam generation for cage washers and autoclaves.

The chilled water supply for the buildings and process cooling will not be affected during this shutdown.

This maintenance will help ensure that we provide reliable service to the campus community.

Buildings NOT affected by the Central Plant HTHW Shutdowns:

AIRB	Housing
Beckman Laser	Irvine Hall
Berkeley Place / Law School	Med. Ed / Berk Alumni
EH&S	Med Surge I
Gavin Eye Institute	Med Surge II
<b>**Gillespie** (Steam system WILL BE affected during shutdown)</b>	Mesa Arts, Commons
Gottschalk	Multipurpose Academic & Admin. Bldg.
Gross Hall	Multipurpose Science & Tech. Bldg.
Hewitt	North Campus
Hitachi	Rockwell Engineering
	Sprague Hall

Please call Tony Garrit at 824-5140 or Michael Bonomo at 824-8715 for questions regarding this regularly scheduled shutdown.
