## Social Ecology

Maintaining an excellent physical infrastructure is part of UCI's strategic plan, and we are pleased to showcase work that took place at Social Ecology. Scope included, all floor's, men's and women's restrooms replacement of stall partitions, new ceramic tile, fresh coat of paint for doors and frames, new mirror and layouts modified to meet current ADA standards. A new, stand-alone single use, Gender-Inclusive-Facility (restroom) was added on the second floor.
